

July Canning prototype 「Bennison stew」 2/2

Photographs of completed processing

Pre winding

After retort sterilisation

■ Impressions.

〈Canning〉

- The moisture content is just right.
- Fits cans with a capacity of 110 g (flat No. 3 cans).

〈After canning〉

- The carrots have a good color and look appealing.
- The meat is a bit large.
- The taste and thickness are a bit lacking.
- All the ingredients are soft.
- Oil has separated and solidified, appearing white.

■ Next Improvement.

〈Canned food production〉

- None in particular.
